BENEFITS OF EQUIS ELEMENT

- EQUIS ELEMENT has been formulated as a high fiber, high fat, and lower non structural carbohydrate option for the everyday equine including adult horses, ponies and miniature horses. Element is a smarter option when managing special needs horses.
- **Get MORE out of EQUIS ELEMENT.** Quality feed ingredients, chelated minerals, added vitamins, yeast products, yucca extract, and selenium yeast maximize utilization of the feed your horse consumes.
- **See the benefits of a quality fixed formula.** EQUIS formulas stay consistent every batch.
- **Enjoy the benefits of a nutritionally sound product at an affordable price.**
- Selenium, generally deficient in northwest soils, has been added in levels sufficient to supplement your horse's requirement. Selenium yeast, a highly available form of selenium, has been added to the new EQUIS formulas.

EQUIS ELEMENT INGREDIENTS

Wheat middlings, dried distillers solubles, soybean hulls, rice bran, beet pulp, alfalfa meal, cane molasses, calcium carbonate, salt, zinc amino acid complex, copper amino acid complex, selenium yeast, yeast culture, sodium selenite, zinc sulfate, basic copper chloride, ferrous sulfate, manganese sulfate, ethylenediamine dihydriodide, cobalt carbonate, mineral oil, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, biotin, choline chloride, niacin supplement, vitamin B-12 supplement, calcium pantothenate, riboflavin supplement, soybean oil, natural and artificial flavors added, DL-methionine, L-lysine hydrochloride, yucca schidigera extract, magnesium carbonate, propionic acid, acetic acid, sorbic acid, benzoic acid, silicon dioxide.

EQUIS ELEMENT FEEDING DIRECTIONS

Activity	Feeding Recommendation as a Percentage(%) of Body Weight	Pounds of Feed per 500 lbs of Body Weight
Maintenance	0.2 + Equis Ultramin*	1
Light Work	0.4-0.6	2-3
Moderate Work	0.6-0.8	3-4
Intense Work	0.8-1.0	4-5

*When feeding less than recommended feeding amount, add **EQUIS ULTRAMIN** to complete your horse's vitamin and mineral requirement (See Equis Ultramin tag for further recommendations).

- Feeding rates depend heavily on the quality of forage, activity level, age, breed, temperament, and special needs of each horse.
- Changes in feed type or rate should be made gradually.
- Feeding a minimum of 1% of body weight in roughage is highly recommended.
- Fresh, clean water should be available at all times.
- Feed horses regularly, preferably two or more times daily.
- Do not feed old, moldy, or insect infested feeds as they may cause illness, abortions, or death. Store in a cool, dry place.
