Vitamin D (min)	500 IU/lb
Vitamin E (min)	65 IU/lb
Biotin (min)	0.5 mg/lb

BENEFITS OF EQUIS GOLDEN SENIOR

- **EQUIS GOLDEN SENIOR** is safe to feed up to 20 lbs per day per 1000 lb horse. This is advantageous for horses who may not be able to efficiently chew hay, have respiratory problems or when high quality roughage is not available.
- **Get MORE out of EQUIS GOLDEN SENIOR**. Quality feed ingredients, chelated minerals, added vitamins, yeast products, and selenium yeast maximize utilization of the feed your horse consumes.
- **See the benefits of a quality fixed formula.** EQUIS formulas stay consistent every batch.
- **Enjoy the benefits of a nutritionally sound product at an affordable cost.**
- Selenium, generally deficient in northwest soils, has been added in sufficient levels to supplement your horse's requirement. Selenium yeast, a highly available form of selenium, has been added to the new EQUIS formulas.

EQUIS GOLDEN SENIOR INGREDIENTS

Wheat middlings, alfalfa meal, dried distillers solubles, rice bran, dried beet pulp, oats, cane molasses, calcium carbonate, salt, soybean oil, zinc amino acid complex, copper amino acid complex, selenium yeast, yeast culture, sodium selenite, zinc sulfate, basic copper chloride, ferrous sulfate, manganese sulfate, ethylenediamine dihydriodide, cobalt carbonate, mineral oil, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, biotin, choline chloride, niacin supplement, vitamin B-12 supplement, calcium pantothenate, riboflavin supplement, yucca schidigera extract, calcium carbonate, roughage products, mineral oil, natural and artificial flavors added, butylated hydroxyanisole, butylated hydroxytoluene, disodium EDTA, phosphoric acid, citric acid, L-Lysine hydrochloride.

EQUIS GOLDEN SENIOR FEEDING DIRECTIONS

Activity	Feeding Recommendation as a Percentage(%) of Body Weight	Pounds of Feed per 500 lbs of Body Weight
Maintenance	0.5-1.0	2.5-5.0
Light Work	1.5-2.0	7.5-10

*When feeding less than recommended feeding amount, add **EQUIS ULTRAMIN** to complete your horse's vitamin and mineral requirement (See Equis Ultramin tag for further recommendations).

- Feeding rates depend heavily on the quality of forage, activity level, age, breed, temperament, and special needs of each horse.
- Changes in feed type or rate should be made gradually.
- Feeding a minimum of 1% of body weight in roughage is highly recommended.
- Fresh, clean water should be available at all times.
- Feed horses regularly, preferably two or more times daily.
- Do not feed old, moldy, or insect infested feeds as they may cause illness, abortions, or death. Store in a dry place.
