Vitamin E (min).....	2,000 IU/lb
Biotin (min).....	50 mg/lb

BENEFITS OF EQUIS ULTRAMIN LOOSE MINERAL

- EQUIS ULTRAMIN can be used free-choice, to compliment unfortified grains, or to complete daily vitamin and mineral requirements when feeding less than recommended feeding levels of other EQUIS FEED products.
- Contains Xtra-Dry® weathering agent to keep product from hardening in wet conditions.
- **Get MORE out of EQUIS ULTRAMIN** with organic mineral sources complimenting inorganic mineral sources.
- **Enjoy the benefits of a nutritionally sound product at an affordable price.**
- Selenium, generally deficient in northwest soils, has been added in levels sufficient to supplement your horse's requirement. Selenium yeast, a highly available form of selenium, has been added to the new EQUIS formulas.

EQUIS ULTRAMIN INGREDIENTS

Monocalcium phosphate, dicalcium phosphate, processed grain byproducts, salt, molasses products, calcium carbonate, zinc amino acid complex, copper amino acid complex, selenium yeast, yeast culture, sodium selenite, zinc sulfate, basic copper chloride, ferrous sulfate, manganese sulfate, ethylenediamine dihydriodide, cobalt carbonate, mineral oil, vitamin A supplement, vitamin D3 supplement, vitamin E supplement, biotin, choline chloride, niacin supplement, vitamin B12 supplement, calcium pantothenate, riboflavin supplement, d-calcium pantothenate, menadione sodium bisulfite complex (source of vitamin K activity), thiamine mononitrate, pyridoxine hydrochloride, folic acid, biotin, calcium silicate, calcium salts of long chain fatty acids, silicon dioxide, copper sulfate, natural and artificial flavors added, cobalt sulfate.

* Contains Xtra-Dry® weathering agent.

EQUIS ULTRAMIN LOOSE MINERAL FEEDING DIRECTIONS

Activity	Ounces of Ultramin per Day	Ounces of Ultramin per 500 lbs of Body Weight per Day
Maintenance	2-3	1

EQUIS ULTRAMIN can be fed free-choice to horses being fed hay or pasture. EQUIS ULTRAMIN can also be top dressed on unfortified grains or when feeding less than 3 pounds of other EQUIS FEED products. With most feeding conditions, consumption should be approximately 2-3 ounces per head daily. Consumption will vary with the type of ration being fed and the individual appetites of horses. If consumption is more than desired, offer salt free-choice. If intake is less than desired, remove salt. Fresh, clean water should be available at all times.

- Feeding a minimum of 1% of body weight in roughage is highly recommended.
